Product

TOPDRY Desiccants

Top-Container Desiccant

Characteristics

TOPDRY is a one-time use food-grade product (based on calcium chloride) that actively reduces the humidity inside the box, pallet, storage or container. TOPDRY can supply different specification, from 5 grams to 2000 grams. With high absorption for water vapor, controls container rain and cargo sweat assures your precious cargo arrive in perfect condition. All TOPDRY products are **environmentally friendly**, free from DMF-Dimethyl Fumarate and highly efficient, used to help you conquer humidity problems in warehouses or containers shipped by sea.

Use

Top-Container Desiccant TOPDRY H-750

Top-Container Desiccant is the new generation of transport protection for the reduction of dew-point and control of condensation. It'll help you conquer humidity problems in containers shipped by sea. Top-Container desiccant is able to absorb up to 220% of its own weight in moisture. Controls container and cargo sweat, hence your precious cargo is safe from air condensation.
